Tikehau Capital Expands European Private Credit Distribution Through iCapital® Marketplace

European private credit strategy becomes available through iCapital Marketplace, broadening its ELTIF 2.0 offering for wealth managers across EMEA

ZURICH, PARIS—October 6, 2026—Tikehau Capital, a global alternative asset manager, today announced the expansion of its partnership with iCapital[1], the global fintech company shaping the future of investing, by making a Tikehau Capital European private credit strategy available through iCapital Marketplace. The addition broadens the platform's offering of evergreen and ELTIF 2.0 investment opportunities for wealth managers across eligible EMEA markets.

The Luxembourg-domiciled, euro-denominated, evergreen strategy invests primarily in first-lien senior secured debt issued by European companies. Structured as an ELTIF, it brings Tikehau Capital's institutional private credit expertise to the private wealth channel.

iCapital Marketplace connects wealth managers, private banks, independent financial advisors, and family offices with a broad menu of private market investment opportunities through a single digital access point. The platform streamlines subscription, investor onboarding, ongoing servicing, and advisor education, helping asset managers expand their distribution capabilities and wealth managers integrate alternative investments more efficiently.

"Through this expanded partnership with iCapital, we are making our European private credit expertise more accessible to wealth managers across EMEA through a streamlined digital investment experience. As private wealth investors continue to seek diversified sources of income and resilience, ELTIF 2.0 structures can help broaden access to institutional-quality private market strategies," said Thomas Friedberger, Deputy CEO of Tikehau Capital.

"Private credit continues to play an important role in private market allocations, and wealth managers are looking for more effective ways to incorporate these strategies into client portfolios," said Jocelyn Pidoux, Head of Asset Manager Solutions EMEA, at iCapital. "By bringing this offering to iCapital Marketplace, we are expanding the range of ELTIF 2.0 opportunities available through the platform and supporting a more streamlined investment experience for wealth managers across EMEA."

The launch builds on the partnership established between Tikehau Capital and iCapital in 2022, through which iCapital's technology has supported digitized subscriptions, investor onboarding, and lifecycle servicing for Tikehau Capital investment opportunities. The expanded collaboration combines Tikehau Capital's European private credit expertise with iCapital's distribution network, digital technology, and servicing capabilities.

About iCapital

iCapital is a global leader, shaping the future of global investing for financial advisors, wealth managers, asset managers, insurance carriers, and other industry participants. iCapital offers a diverse and complete range of non-traditional investment products on iCapital Marketplace, Enterprise Solutions, and both Technology and Data Services, designed to help drive better outcomes[2] for all participants in the ecosystem.

With strategic investment from leading alternative asset managers, wealth managers, and service providers globally, iCapital provides broad access, data connectivity, education, and research programs to advisors and their clients. Leveraging AI and machine learning for digital identity (KYC/AML), iCapital supports compliant and secure investment lifecycle processes.

iCapital's end-to-end platform manages the lifecycle of non-traditional investment products, making it easier to learn about, buy, manage, and integrate alternative assets, structured investments, and annuities and insurance products into portfolios, driving growth, scale, and efficiency. Our solution(s) can be customized and offers specific modules as needed.

iCapital has $1.2 trillion[3] of assets serviced globally on its platform, including $327 billion in alternative platform assets, $311 billion in structured investments and annuities & insurance outstanding, and $563 billion in client assets reported on, and serves nearly 3,900 wealth management firms and 144,000 active financial professionals.

Headquartered in New York and Greenwich, CT, iCapital operates globally with 18 offices, including major hubs in Zurich, London, Hong Kong, Singapore, Tokyo, Sydney, Abu Dhabi, and Toronto, and an industry-leading R&D center in Lisbon. iCapital is recognized for its innovation and leadership, with accolades from Euromoney (World's Best Technology Provider for Wealth Management), CNBC (World's Top Fintech Companies), and Forbes Fintech 50.
