The aim

Promoting a more inclusive and supportive society.

Some children leave the education system prematurely. Some struggle at school due to health problems. Others need help integrating into society. Regardless of the issues they face, wherever they live and whatever their background or life story, the **Tikehau Capital Foundation** supports underprivileged youth of all ages.

The Foundation works to promote their integration and **help them to thrive, realise their potential and take control of their futures.**

Together with our association network, we are helping to build a brighter future for these young people, providing them with the means to access **full equality of opportunity.**

Since the vulnerability of young lives knows no borders, the Foundation is international in reach, supporting associations and initiatives in countries where Tikehau Capital has a presence.

The causes that drive us

Inclusion

OF DISADVANTAGED YOUTH

Breaking the cycle of poverty by helping to provide young people from inner-city neighbourhoods with equitable access to education, vocational training and other resources to support their success.

Child

PROTECTION

Work closely with youth who have grown up in child protection environments, enabling them to become independent and fully integrated into society through educational opportunities and personal development support.

Workplace

INTEGRATION

Ignite the passion of young individuals and nurture their curiosity, particularly through sport. Promote their workplace integration by encouraging them to design and develop projects that resonate with their interests.

Mentoring

AND SUPPORT

Offer active support through mentoring to help youth develop their projects, acquire entrepreneurial skills and turn their ideas into reality.

A meaningful positive impact

The initiatives carried out by the associations we work with have a significant positive impact on the lives of the youth we are dedicated to supporting.

These programmes provide them with the **academic fundamentals** they need, give them the keys to success, boost their **self-confidence**, develop their **leadership skills** and prepare them for a **successful future**.
